THIRD VOLUNTARY AMENDMENT

Dear Sir:

Please amend the above referenced Application as follows:

In the Claims:

Please add the following new claims:

--94.(New) A non-volatile semiconductor memory device comprising:

a plurality of non-volatile memory cells each of which has a threshold voltage representing data of at least two bits, wherein threshold voltages of the plurality of non-volatile memory cells are shiftable among at least three threshold levels which indicate mutually different programming states and which also differ from a threshold level indicating an erase state;

parameter generating circuitry generating a first programming reference parameter, a first read reference parameter, a second programming reference parameter, a
